

**CHOITHRAM SCHOOL MANIKBAGH INDORE**

**CLASS XI Session: 2016-17**

SUBJECT- Economics  
Scheduled Date: 27/01/2017

ASSIGNMENT No:4  
Submission Date :31/01/2017

Q.no	Questions	Mark																
<b>Very Short Answer</b>																		
1.	What is casualisation of workforce?	1																
2.	How is rural unemployment classified in India?	1																
3	Human capital formation increases the efficiency of physical capital. How?	1																
<b>Very Short Answer</b>																		
4	Define labour supply and labour force.	2																
5	What are the causes of unemployment in India?	2																
6	State any two government policy programs for increasing employment opportunities.	2																
7	Find out the quartile deviation: <table border="1" style="width: 100%; border-collapse: collapse;"><tr><td>Roll no.</td><td>1</td><td>2</td><td>3</td><td>4</td><td>5</td><td>6</td><td>7</td></tr><tr><td>Marks</td><td>20</td><td>28</td><td>40</td><td>12</td><td>30</td><td>15</td><td>50</td></tr></table>	Roll no.	1	2	3	4	5	6	7	Marks	20	28	40	12	30	15	50	2
Roll no.	1	2	3	4	5	6	7											
Marks	20	28	40	12	30	15	50											
<b>Short Answer</b>																		
8	How education is an essential element for capital formation?	3																
9	Explain are the other sources of employment in primary sector?	3																
10	Find mean deviation from mean: <table border="1" style="width: 100%; border-collapse: collapse;"><tr><td>X</td><td>140-150</td><td>150-160</td><td>160-170</td><td>170-180</td><td>180-190</td><td>190-200</td></tr><tr><td>F</td><td>4</td><td>6</td><td>10</td><td>18</td><td>9</td><td>3</td></tr></table>	X	140-150	150-160	160-170	170-180	180-190	190-200	F	4	6	10	18	9	3	3		
X	140-150	150-160	160-170	170-180	180-190	190-200												
F	4	6	10	18	9	3												
<b>Long Answer</b>																		
11	Explain the government measures to improve agricultural marketing system?	5																
12	In two towns A an B, daily pocket money and the standard deviation are given below: <table border="1" style="width: 100%; border-collapse: collapse;"><tr><td>Town</td><td>Average daily pocket</td><td>Standard deviation</td><td>No. of Teenagers</td></tr><tr><td>A</td><td>34.5</td><td>5</td><td>476</td></tr><tr><td>B</td><td>28.5</td><td>4.5</td><td>524</td></tr></table> <ol style="list-style-type: none"><li>Which town A and B pays out the larger amount of daily pocket money?</li><li>Calculate coefficient of variation of each town. Which town is more variable in terms of pocket money?</li></ol>	Town	Average daily pocket	Standard deviation	No. of Teenagers	A	34.5	5	476	B	28.5	4.5	524	5				
Town	Average daily pocket	Standard deviation	No. of Teenagers															
A	34.5	5	476															
B	28.5	4.5	524
